Muni

Service

Changes

Effective

October 1,

1988

MUNI

**MUNI REGRETS** that fares are increased and some service is reduced.

The city is faced with a deficit, and the Muni service reductions described in this pamphlet are a part of the overall effort to balance the budget.

Changes have been made carefully so that you are caused minimum inconvenience. In some cases—particularly the new 23 line—Muni has extended service where none existed before.

As you travel through our beautiful city, please know that your understanding and co-operation is greatly appreciated—by Muni management, by Muni labor, and by City Hall.

Sincerely,  
*William D. Stead*

INTRODUCTION

No one likes higher fares and service reductions. The challenge handed to Muni by the city's fiscal crisis was to devise cuts that would inconvenience the fewest passengers, and to make changes that would benefit the most.

Where's My Service?

Of the 79 Muni lines in the city, 23 have been changed or eliminated. We are happy to tell you that for the great majority of changes, there is alternative service. See the Map and the Route Guide in this pamphlet for details.

Are the Changes Only In My Neighborhood?

The changes have been thoughtfully carried out so that adjustments have been made throughout the city. We are all in this together.

How Do I Use This Guide?

This pamphlet contains 4 sections. Written descriptions appear on this side. The other side is a map illustrating the route changes.

The **Map** shows revised routes to help you orient yourself to the changes. See the Route Guide for a full description of service changes.

The **Route Guide** describes the change to each line. The "Alternative Service" sections help you determine quickly what is offered to you in replacement for those services that have been changed or eliminated.

The **Frequency Guide** gives you an idea how often the buses will arrive, and the first and last service of each day.

The **Fare Guide** gives you an overview of the new rates that went into effect August 1, 1988. Please consult the pamphlet "Muni Fare Guide" for more detailed information about fares and the special value passes available.

We are here to serve. If you have any questions about these changes or service in general, please call 673-MUNI.

FALL-WINTER TIME TABLES

The Fall-Winter Time Tables booklet will have up-to-date service schedules. Booklets will be available on the Muni buses, in Metro stations, public libraries, the City Hall Information Booth, and the AC Transit Ticket Booth in the Transbay Terminal.
